

23 April 1947

MEMORANDUM TO: CHIEF, INTELLIGENCE STAFF:

The subject of authority and responsibility of the Intelligence Staff and the branches treated in your memorandum of 17 April 1947 has, as you are aware, long been considered. An attempt will be made to delineate respective authority and responsibility in a general instruction covering the ORE organization which it is hoped can be issued soon.

It is not believed advisable to make this theme a subject of general discussion at the present time.
